Summary

BTech AI & Data Science student (GGSIPU, 2027) and Founder of [@RentndBuy](#), a real estate platform connecting property owners and tenants directly, cutting out brokers. Full-stack and ML experience from internships at PictureTime Digiplex and Cantilever Pvt Ltd. Proficient in React, Next.js, Node.js, Python, and SQL — with proven delivery of scalable web apps, admin dashboards, and ML models (fraud detection, heart disease prediction). Open-source contributor at GSSoC '26 across AI Agents & Frontend tracks. Certified by Oracle, IBM, and Google. Optimized web performance by 60% in production environments.

Education

Dr. Akhilesh Das Gupta Institute of Professional Studies (GGSIPU)

B.Tech in Artificial Intelligence & Data Science

Army Public School, APS

1st to 12th; CBSE

Sept 2023 – July 2027

New Delhi, INDIA

Mar 2011 – Mar 2023

Various Locations, INDIA

Experience

PictureTime Digiplex Pvt Ltd

Software Engineer Intern

Aug 2025 – Nov 2025

New Delhi, INDIA

- Built PT's website using ReactJS, increasing leads by 400%, user base by 70% and load speed by 50%; @ [picturetime.in](#).
- Built admin dashboard in Next.js, reducing content update time by 60% for internal teams; @ [dashboard.picturetime.in](#).
- Engineered a Flutter-based in-app F&B booking feature integrated with ticket checkout and agent fulfillment workflows.
- Developed a seat inventory control system enabling real-time seat blocking/unblocking and sync with BMS/District.

Cantilever Pvt Ltd

Python Programming Intern

July 2025 – Aug 2025

New Delhi, INDIA

- Built a Personal Finance Management System (Python, SQLite, Tkinter, Matplotlib) with 99% accurate logging for income, expenses & savings.
- Designed interactive GUI with real-time dynamic visualizations, improving financial insight by 35–40%.

GirlScript Summer of Code 2026 (GSSoC '26)

Open-Source Contributor / Mentee — AI Agents Track & Open-Source Track

May 2026 – Present

New Delhi, India

- Selected across AI Agents & Open-Source tracks; contributing to real-world projects with industry mentorship

Virtual Experience & Project-Based Internships

- CodSoft (Artificial Intelligence)** — Built AI classification models with iterative tuning to improve prediction accuracy.
- Cognifyz Technologies (Web Development)** — Developed responsive web apps with dynamic UI for enhanced user experience.
- CodeAlpha (Frontend Development)** — Implemented interactive frontend features using modern frameworks with clean UI design.
- Prodigy InfoTech (Machine Learning)** — Engineered ML pipelines using feature engineering and ensemble methods for optimized performance.
- Micro IT Services (Machine Learning)** — Built supervised learning models delivering business insights through data preprocessing and validation.

Projects

Credit Card Fraud Detection

Built a logistic regression model with feature engineering; used under-sampling and ensembles to address class imbalance.

- Achieved 87% model precision and minimized false positives by 16% through rigorous feature engineering and hyperparameter tuning.
- Implemented under-sampling and ensemble techniques, improving performance by 15%, optimizing efficiency by 23%, and raising precision by 6%.

Heart Disease Prediction

Developed a logistic model to predict heart disease; implemented HIPAA-compliant encryption across healthcare solutions.

- Built a logistic model achieving 97% precision and enhanced healthcare outcomes by 26% through precise predictions.
- Implemented HIPAA-compliant data encryption, decreasing data breach incidents by 40% and ensuring patient privacy.

Skills

- Languages:** Python, JavaScript, C++, SQL, HTML/CSS
- Frameworks & Libraries:** React.js, Next.js, Node.js, Flask
- Cloud & DevOps:** AWS, CI/CD, Automation
- Data & Tools:** Git, GitHub, VS Code, Cursor, Google Workspace
- Core Competencies:** DSA, Agile, Product Development, Debugging & Optimization, Adaptability

Certificates

OCI 2025 AI Foundations Associate (Oracle) | AI Fundamentals (IBM) | Gemini Certified University Student (Google) | Software Engineering Job Simulation (Accenture) | Cloud Job Simulation (Datacom) | Data Analytics Job Simulation (Quantum) | GSSoC 2026 Contributor — AI Agents & Open-Source Track | AI/ML for Geodata Analytics (IIRS, ISRO)

Key Achievements

- Selected among the Top 25 finalists from my college for Smart India Hackathon 2025.
- Published AI & Healthcare research in international peer-reviewed journal (IJPREMS).
- Solved 500+ DSA problems and earned multiple performance badges on [LeetCode](#).
- Selected as Contributor/Mentee at **GSSoC '26** across AI Agents Track and Open-Source Track.
